

2013 CABERNET SAUVIGNON

A TRADITION OF SUSTAINABLE WINEGROWING

As a fifth generation farm family, sustainable winegrowing is a way of life. We learned early on that to be generational we must be sustainable. As a result, our dedication to improving vineyard practices and health of our surrounding natural environment is how we farm. After nearly 30 years, agriculture continues to be the core of who we are and in 2006 we opened our own winery to show that great wine begins in the vineyard. Our 2013 Cabernet Sauvignon carries on this proud tradition of sustainable winegrowing.

GROWING SEASON

We were fortunate with the weather for much of the growing season, having a relatively dry spring and arid summer that allowed us to have complete control of irrigation. A week of very warm temperatures in the beginning of July spurred an early 2013 harvest, but during harvest the weather cooperated with daytime temperatures in the 80's to low 90's and only in the 50's at night. This was perfect to develop flavor intensity. In mid-September an unexpected 1/2 inch of rain worried us about our late ripening varieties, but we managed crop levels both early in the season and closely after the rains and were rewarded with excellent color and flavor intensity.

VINEYARD NOTES

Our LangeTwins Estate Cabernet Sauvignon draws on winegrapes from three estate vineyards in the center of the Lodi Appellation. From gentle rolling vineyard floors to the influence of a nearby river, each vineyard has unique attributes that are essential to the consistent style and quality.

WINEMAKER NOTES

The 2013 Cabernet Sauvignon opens with dense cherry aromas that carry through to the palate. Extended maceration adds richness and length to the wine while 16 months of aging in predominately French Oak barrels lend flavors of warm spice. This is a well-balanced wine that can be enjoyed now and for years to come.
